## God's Mighty Hand at Work

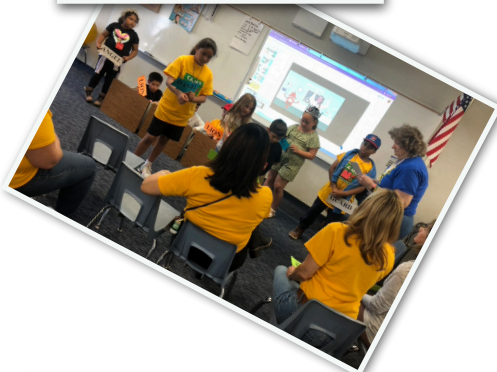

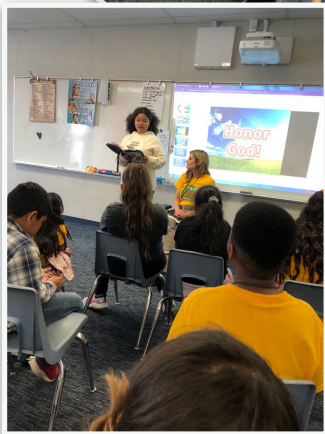

### Second New Club!

By Elaine Nunn

Even though I have been teaching over 18 years, I am new at McKinley Elementary School. I was so excited to start another Good News Club and started reaching out to others, but no one seemed interested and/or available. I was growing very discouraged and felt like giving up. I cried out and asked the Lord to show me if He really wanted a club at my new school. I was ready to give up this vision.

My friend Alicia Young encouraged me not to stop pressing forward. I also sought advice from my pastor, Mike Long, at Main Street Church along with our GNC pastor, Dan. They both said the same thing, to just pick a date and see what God would do. That's exactly what I did, and a couple of weeks later I met another teacher at my school site named Esther. When I told her about the Good News Club, she became very excited also. We started praying with a few others at our school about the Good News Club coming to our school. Esther volunteered to co-lead and help start the club. Then, other volunteers started committing to the club.

Fast forward to May. **We now have over twenty students involved and most have given their life to Christ.** They were very upset to hear the club would be ending for the school year. I am still overwhelmed by how God answered prayers and how His Holy Spirit is at work at McKinley Elementary. To God be the Glory!
